

Petroleum Research School of Norway (NFIP) Annual PhD Seminar November 16th, 2018

Innovative Petroleum Research at Universities in Norway

Petroleum research today needs to be innovative and reflecting sustainability with respect to both economy and the environment. The 2018 NFIP Annual Seminar provides info on current research activities, with emphasis on innovation, for the current petroleum research portfolio of universities in Norway and in international research collaborations.

Provided by: Petroleum Research School of Norway (NFIP; <http://www.nfip.no/>)
